

Exception.h

```
graph TD; A[Exception.h] --> B[exception]; A --> C[string];
```

A diagram illustrating a relationship between a header file and two other components. At the top is a gray rectangular box labeled "Exception.h". Two blue arrows originate from the bottom edge of this box. The left arrow points down and to the left to a white rectangular box labeled "exception". The right arrow points down and to the right to a white rectangular box labeled "string".

exception

string
